

The background of the slide features a low-angle photograph of modern skyscrapers in Tokyo, with a dark blue semi-transparent rectangle overlaid in the center. A thin red vertical line is positioned on the left side of the blue rectangle, and a thin red horizontal line is at the bottom right corner.

# Tokyo Wards analysis

# Rent.

## A Brief Background

Tokyo city is known as one of the most expensive cities in the world. Which attracts a lot of tourists every year, some of them fall in love with this beautiful country and start to consider moving there.

Here is the visualisation of 1LDK rent in each of 23 Wards.

To make it easier to understand here are the neighborgoods grouped by their location.

----Adachi----

	venue	freq
0	Convenience Store	0.21
1	Bus Stop	0.07
2	Grocery Store	0.07
3	Park	0.07
4	Intersection	0.07

----Shibuya----

	venue	freq
0	Café	0.13
1	Coffee Shop	0.07
2	Japanese Restaurant	0.05
3	Bar	0.05
4	Art Gallery	0.04

----Toshima----

	venue	freq
0	Ramen Restaurant	0.10
1	Café	0.07
2	Sake Bar	0.06
3	Japanese Restaurant	0.05
4	Coffee Shop	0.03

I chose one neighborhood to represent the whole group (close to the center, a little bit further and on periphery). Here you can see top 5 most frequent venues in each neighborhood.

# Conclusion.

We can say that it is pretty clear that areas with higher rent price have more places to go around, such as bars, cafes, on the other side the further the area is - the less entertainment is there, it can be more suitable for people who want to live in a quiet place.
